## Design Stars 2016: 20 Furniture Designers To Watch For

*Statement-making and timeless furniture pieces are what you can expect from these rising designers.*

For this year's [International Furniture Fair Singapore \(IFFS\)](#), the Design Stars Showcase features 20 talented designers from

across the world who have made a significant impact through their works.

With the theme "Celebrate Inspirations", they exhibited their works of art for the home. Check them out and their masterpieces:

Modern, relevant, personal, and relatable homewares and furniture are what local brand [Scene Shang](#) is known for. Its founders, Jessica Wong and Pamela Ting, believe that despite modern progress, concepts and values of yesteryears—classic Asian lines, artistic elements, luxe sensibilities—should not be forgotten. Hence, these elements are embedded in their pieces.

**Singapore**

Already an accomplished architect and urban planner, Lebanese designer [Tarek ElKassouf](#) dabbled in furniture design in 2014 when he launched "The Edge" series of furniture and lighting. His works reflect a lot of his inspiration: Middle Eastern geometric patterns.
