## Cities

**Location:** Dubai | United Arab Emirates, Riyadh | Saudi Arabia  
**Directors:** Hazem Aljesr

With a vision to introducing exceptionally crafted contemporary design and art, Cities first opened its doors in 2008, in Riyadh, Saudi Arabia. After successfully building a solid reputation, a second showroom was introduced in Dubai U.A.E. Today, Cities exists as a concept space which takes clients on a journey through the design landscape of the world.

Sourced from all around the world, each piece within the Cities' collection is handpicked from a variety of International and Middle Eastern talents. Artisans and renowned designers from across the globe choose Cities as an arena to display and share their authentic creations. Cities also works hand-in-hand with many upcoming artists from the Middle East and Gulf regions to highlight their contributions to the field of art and design.

The Cities exhibit at Design Days Dubai is sharing the work of several talented designers. From Cyprus, The Wave City table by Stelios Mousarris depicts the city skyline transformed into functional design, created with the use of 3D printing technology. To accentuate this forward-thinking creation, Cities is also exhibiting lighting from Lebanese designer Tarek El Kassouf. His Intersect, Lean, and Fracture lighting designs all take inspiration from the urban environment, while their construction from materials such as brass and steel reinforce their industrial, futuristic style.
