Tarek Elkassouf Portrays The Twisted Diamond Lamp

Tarek Elkassouf, the maker of the award winning project Lamp by Tarek Elkassouf explains, Twisted Diamond is part of The Edge – Beirut Revisited Collection, an evolution of The Edge – Beirut Collection, which takes a cue from the city of Beirut – a city always on the edge of instability, chaos, creativity and adaptability. The versatile geometric form allows for each individual lamp to be stacked, rotated, flipped or form part of a repeating pattern that is inspired by Middle Eastern architecture. The motif is a contemporary take on the moucharabiah lamp of the traditional Middle Eastern souk. It is made from perforated steel, is hand-welded and painted by artisans in Lebanon.
